

Premium Forging for All Metals.

1963年以来、半世紀以上蓄積してきた高合金鍛造の技術を活かし、熱処理、粗引加工、仕上加工の各工程をすべて自社で完結、AS9100品質システムに則り厳格な管理の元でものづくりを実現しています。

For over a half century since 1963, we've actively accumulated high-alloy-forging technology, completing all heat treatments, rough processing and finishing processing within our company. We have been able to strictly manage these manufacturing processes in accordance with the AS9100 quality system.

ニッケル銅合金ALLOY400
リング鍛造品
ニアネットに鍛造後、弊社内機械加工部門で切削いたします

Nickel copper alloy ALLOY400
Thin ring forgings
After forging into near net shape, we will cut in our company's machining division.

1.5tエアハンマー
7000L程度まで鍛造可能

1.5-ton air hammer
Forging capabilities up to 7000L

2000トン油圧プレス

2000-ton hydraulic press

- ・ 2018年新工場設立、仕上機械加工まで自社内で対応
- ・ INCONEL, ハステロイ, チタン合金等 50種類以上100トン在庫
- ・ 鍛造から機械加工まで様々な仕様をご相談下さい
- ・ 導入した 1300℃熱処理炉で各種ご要求にお応えします

- New factory opened in 2018. Finishing processes can be handled in-house.
- 100-ton storage for more than 50 types, including INCONEL, Hastelloy, titanium alloy and etc.

Please consult us on a variety of steps, from forging to machining.
We can respond to various demands with our installed 1300°C heat-treatment furnace.
